DETAILED ACTION

1. Receipt is acknowledged of the response filed on 14 February 2007, which has been entered in the file.

Allowable Subject Matter

2. Claims 1-7 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The best prior art of record to Akita et al. (US 6,779,733) discloses a non-contact ID card comprising an antenna with antenna electrodes connected with an enlarged electrodes using electrically conductive adhesive agent,

Sasaki et al. (US 6,554,194) discloses an IC card and manufacturing of the same.

However, Akita et al. and Sasaki et al. taken alone or in combination with other references fails to particularly teach that the non-contact ID card comprising an antenna with antenna metal electrodes and enlarged resin electrodes wherein antenna metal electrodes and the enlarged resin electrodes are in direct contact or joined to be integrated and the enlarged electrode is a resin electrode made of conductive resin containing thermoplastic resin as presented by the applicant and set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
